

RESHAM BAGARIA

Senior Landscape Designer

OVERVIEW

Experienced Landscape Designer with almost a decade of experience across Australia, India and the United States, delivering projects from concept through to construction. For the past 2.5 years, I have specialized in design-build for high-end residential landscapes in the U.S., focusing on attention to detail, material quality, and creating meaningful user experiences. I am skilled in master planning, detailed documentation, planting design, and consultant coordination. Adept at working collaboratively within integrated environments alongside architecture and interior design teams to create cohesive, high-quality public and private realm projects.

- Lumion
- Microsoft Suite

EXPERIENCE

GLENGATE COMPANY (MARIANI PREMIER GROUP), USA.

Senior Landscape Designer

2024 – 2025

As a Senior Landscape Designer, I provided leadership across all stages of the landscape design process, from concept development through construction delivery, producing comprehensive master plans, detailed technical documentation, and high-quality design presentations. Successfully managed multiple projects and client relationships while coordinating closely with multidisciplinary consultants and contractors.

Ensured full compliance with planning controls, zoning regulations, environmental standards, and statutory approval requirements. Delivered sustainable water-sensitive design solutions that improved site drainage performance and reduced long-term maintenance costs on large-scale urban developments, alongside thoughtfully resolved planting schemes that enhanced landscape character and consistently exceeded client expectations across residential projects.

RENEE BYERS LANDSCAPE ARCHITECTS (RBLA), USA.

Landscape Designer

2022 – 2023

As a Landscape Designer, I prepared graphic layouts including concept sketches, rendered plans, and presentation drawings to effectively communicate design intent to clients. I developed site-responsive concepts based on detailed site analysis and client briefs, progressing approved designs into comprehensive final plans using CAD software while ensuring technical accuracy and compliance with relevant standards. I produced site plans, planting plans, and construction documentation with clear specifications, and coordinated closely with architects, engineers, consultants, and contractors to support smooth project delivery. My planting designs responded to environmental conditions and maintenance requirements, integrating aesthetic, functional, and sustainable principles to create balanced and resilient landscape outcomes.

**MEXTED RIMMERS LANDSCAPE ARCHITECTS
(MRA), AUSTRALIA.**

Graduate Landscape Designer

2020 – 2021

I supported the delivery of landscape architecture projects from concept through to documentation. During the COVID-19 pandemic, I worked primarily in a remote setting, adapting to virtual collaboration, online client presentations, and digital project coordination while maintaining productivity and meeting deadlines.

My role involved preparing concept plans, detailed drawings, planting plans, and presentation materials using industry-standard software. I contributed to the production of technical documentation, specifications, and council submission packages.

This experience strengthened my adaptability, online communication, and documentation skills.

**THE ANDRESON PETROLEUM COMPANY
(APCO), AUSTRALIA.**

Landscape Consultant

2018 – 2019

As a Landscape Consultant for a service station company based in Geelong, I was responsible for preparing and coordinating landscape plans for fuel station developments across multiple sites. I developed compliant and functional landscape designs that responded to planning permit requirements, safety regulations, and operational needs specific to service station environments. My role involved preparing detailed planting plans, schedules, and specifications, ensuring appropriate species selection for high-traffic, low-maintenance settings. Exploring local nurseries for selecting appropriate hardscape & landscape.

JAGADESH ASSOCIATES (JA), INDIA.

Senior Landscape Architect

2016 – 2017

As a Senior Landscape Architect in India, I led the design and delivery of landscape architecture projects for large-scale multi-residential complexes. I managed the design process from concept development through detailed documentation and site execution, ensuring cohesive and high-quality outcomes. My role involved developing master plans, podium landscapes, internal courtyards, amenity spaces, and recreational areas that enhanced community living and environmental performance. I guided a team in preparing detailed planting plans, hardscape layouts, construction drawings, and technical specifications.

PRIME CITY SPACES, INDIA.

Junior Architect

2015 – 2016

As a Junior Architect in India, I supported architectural and interior projects through drafting, site measurements, and preparation of technical specifications. I produced detailed working drawings and layouts, conducted site visits to monitor progress, and coordinated with contractors to resolve on-site issues. I also assisted with material selection and interior detailing, strengthening my technical documentation skills and understanding of construction processes.

ENVISION LANDSCAPE ARCHITECTS, INDIA.

Intern

2014

As a Landscape Architecture Intern, my responsibilities included preparing presentation drawings, drafting plans and sections and assisting with site analysis and research. I also supported the preparation of construction documentation and specifications, ensuring accuracy and clarity. Participation in site visits and team meetings provided exposure to project coordination, consultant collaboration, and practical implementation of design ideas.

CREATIVE DESIGN GROUP, INDIA.

Intern

2014

As an Architecture Intern, my responsibilities included drafting plans and sections and assisting with site analysis and research. Participation in site visits and team meetings provided exposure to project coordination, consultant collaboration, and practical implementation of design idea
